## A SPA TRADITION

Following tonight's curtain call, there will be a final musical number. The rest of the students in the Summer Performing Arts Company will join the cast to perform "I Sing the Body Electric." This song has closed all SPA performances for the past 18 years. This symbolic song ties the entire program together. It has different meanings to different students, but a common theme can be found in the literal text. The students are celebrating not only the arts, but their growth in the arts yet to come. They will go on to create their own tomorrows as they continue in music and theatre. The song also symbolizes the passing of a class. This is the last summer program in which the class of 2006 will be able to participate. This "passing of the tradition" is represented by the two soloists selected to sing. Marcus Woodard, a senior, will sing the first verse then turn the spotlight over to Amelia Klaus, a student new to the High School SPA company.

*"And in time we will all be stars."*
