

2014 MySPA Showcase

Theatre Makes Sense

Please take time to look at the art work on stage and in the foyer created with heart and soul by the students. This season, we have been working with the five senses,(hence the spelling of our title) and exploring all of the amazing ways in which our senses are used in the theatre world.

A collaboration of efforts between SPA and Special Education makes this showcase a truly unique experience for everyone involved. We truly appreciate the hard work from our students, teachers, volunteers, parents and the community.
